

Hi representative,

Please do not allow the LPFM stations to take priority over the FM Translator Services. I didn't have the positive influence that my children do when it comes to choosing a radio station. They get to listen to Air1 rather than some of the other not as positive (and sometimes vulgar) stations. Air! has been a positive influence on me and my children and their friends. The programming like Air! just isn't available in this community. I don't know what it would be like without it, but it would not be better. Air1 is beneficial to the public. How can providing positive radio messages and music not be? Please hear me.

Steve Cook
